BED COMPANY

ADJUSTABLE BEDS & OTTOMANS

Welcome to the Old English Bed Company Lifestyle Collection.

The Lifestyle Collection features our new range of adjustable beds and ottoman divans which are all available in an exciting range of fabrics. All our beds are manufactured at our factory in Suffolk, England and, as a division of the Mansion House Bedding Company, we have over 140 years of bed manufacturing experience.

Our new adjustable range offers six choices of mattress from pocket sprung, Visco memory foam & pocket springs, Visco memory foam with Reflex foam in our new FAIRTRADE ticking and Laytech® and pocket springs.

The adjustable divan bases are available with or without storage drawer options, or if you prefer, a shallow base on fixed legs. There is a large range of divan fabrics available to choose from with headboards to match. Each adjustable frame has a five-part action; the motor comes with battery back-up in case of power failure and mains isolation on the plug. As an optional extra a massage unit with infrared remote control can be purchased separately.

Size options are 2'6", 3'0", 3'6", 4'0" and 4'6". 5'0" and 6'0" adjustable beds comprise two singles with linked divans. All lengths are 6'6" long. The different drawer combinations are: one or two drawers on the side, one drawer at the foot end, or one drawer at the foot end and one at the side.

Ivory Softline 6 button handset to operate the head and foot ends independently and together.

ADJUSTABLE

Standard features:

- *Night light*
- *Two very quiet massage motors*
- *Infrared remote control which operates the bed and massage unit*
- *Easy installation*

Lift & Rise

• Base shown in mattress fabric

Our ottoman divans are a great storage solution and, when upholstered in one of the many fabrics available, are more like a piece of furniture than a bed. With the option of side-opening or end-opening, the ottomans offer the whole divan as storage space. They also feature gas strut action to make opening and closing easy.

Standard size options are 2'6", 3'0", 3'6", 4'0" and 4'6" (all 6'3" long) plus 5'0" and 6'0" (6'6" long). Other non standard sizes, including different depths, are available upon request.

Gas strut and hinge.
